Krasnoyarsk region is among those, which form the economic backbone of our country. Its obvious competitive advantages are rich exploitable mineral resources, accessible energy resources, powerful industry and its location at the center of Russia at the intersection of transcontinental transport routes. It is a universal bridge between the East and the West and the focus point of human resources and substantial investments. Results of many of strategically significant projects and programs operating within the region define the progress in strategic development of Russia. It is certain that the largest territory in Siberia has a great potential of infrastructural and investment development.

**Alexander Uss**  
Acting Governor of Krasnoyarsk region
GEOGRAPHIC CENTRE OF RUSSIA

2nd largest region of Russia

2 875 000 people

2 366 800 sq.km.

17 city districts

44 municipalities

Moscow
